

## Research Analysts Trainee - Euromonitor

Length of internship: > 6 months, Start Date: As soon as possible

Euromonitor is a globally leading market research and publications firm. As a Research Analyst Trainee, you will directly research FMCG industries in India. You will be researching and building country knowledge by analysing a range of primary and secondary sources on the country and conducting trade interviews with both local and global industry experts ranging from manufacturing companies and distributors to retailers and suppliers. You will also be responsible for writing the final report for publication. You will also be commissioning in-country analysts to produce regional data and insightful text reports with local colour. You will take full ownership of schedules and ensure that projects are completed on time and to our exacting high quality standards. Full training will be provided.

### Requirements:

- Strong interest in fmcg industries ranging from food & beverages and personal care to retail, travel and foodservice.
- A degree in Business, Economics, Marketing, Statistics or other related fields
- Fluent oral and written English
- Superb numeracy, writing and analytical skills
- Excellent communications skills and a strong personality
- Creativity, tenacity and curiosity
- Ability to manage multiple projects concurrently and prioritise effectively
- A proven track record in primary and secondary research preferred but not essential

Remuneration:

> 1500 S\$/month
